

## Verbatim launches cost-effective replacement for fluorescent high bay and low bay fixtures

### Introducing Verbatim LED High Bay Luminaires – highly-efficient DLC Premium fixtures for a variety of commercial and industrial environments

**Charlotte, NC, March 29, 2017** – Verbatim is proud to announce its latest addition to its LED fixture line – LED High Bay Luminaires. Verbatim LED High Bay Luminaires are cost-effective, highly-efficient replacements for HID and fluorescent high bay and low bay fixtures. Wire guards and pendant mount kit sold separately.

Superior performance with premium quality. Verbatim's LED Linear High Bay Luminaires provide great value and maximize return on investment, compared to traditional metal halide and fluorescent high bay or low bay fixtures. With up to 132 lm/W efficacy, Verbatim LED Linear High Bay Luminaires increase energy savings and are certified DLC Premium. These luminaires are designed to last, featuring high-grade steel housing, advanced thermal design, premium LED components and a flicker-free driver. The Verbatim LED Linear High Bay Luminaire comes standard with 0-10V dimming allowing for lighting customization and control based on ceiling height and working environment. Easy to install with included V-hooks and chain, Verbatim LED High Bay Luminaires feature a frosted lens diffuser producing comfortable light and reducing glare. These luminaires are an ideal solution for a variety of high-ceiling, commercial applications including warehouses, manufacturing facilities and gymnasiums. Backed by Verbatim's 5-year limited warranty, the LED Linear High Bay Luminaire has a rated life of 50,000 hours, resulting in reduced maintenance and replacement costs.

## About Verbatim

For over 40 years, the Verbatim brand has been recognized for its dominant role in the consumer electronics industry. We have a strong reputation for performance, compatibility, and quality, which has led the Verbatim brand to global market leadership. Backed by the technology developed by our parent company, Mitsubishi Chemical Holdings Company (MCHC), Verbatim has a growing lighting portfolio, including our broad range of LED retrofit lamps, and our continuously expanding line of LED fixtures. We strive to enhance the quality and experience of light, while reducing lighting's impact on our environment.
